PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Addressed customer and dealer queries via written and telephone channels, ensuring professional and timely responses to maintain service standards.
- Monitored daily workflow across the operations team, identifying and escalating bottlenecks to ensure timely turnaround on all client and dealer inquiries.
- Assisted the Customer Operations Manager and Business Support Team in administrative duties, including filing, data entry, and report compilation to support departmental objectives.
- Developed and maintained strong working relationships with a nationwide dealer network and business managers, facilitating seamless communication and support.
- Resolved administrative problems and process inefficiencies by analyzing operational data and proposing procedural improvements to the support team.
- Managed and organised workload to meet deadlines in a fast-paced, team-based environment, contributing to overall departmental efficiency and client satisfaction.
- Collaborated with cross-functional teams to gather requirements and provide post-implementation support for system updates, ensuring smooth transitions for end-users.

SKILLS

Core Competencies – Microsoft Office Suite, Excel, Customer Service, Interpersonal Skills, Communication Skills.

Operations Support – Query Management, Workflow Monitoring, Administrative Duties, Problem Resolution, Deadline Management.

Dealer Network – Relationship Building, Business Management, Communication, Support, Collaboration.

Software & Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Jenkins, Git, Linux.

Programming Languages – Java, Python, SQL.

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn.

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch).

PROJECTS

Customer Operations Dashboard Enhancement

- Enhanced an internal dashboard used by the customer operations team to track inquiry volumes and resolution times, reducing average response time by 15%.
- Developed Python scripts to automate the generation of weekly operational reports, summarizing key performance indicators for management review.
- Collaborated with business analysts to refine dashboard metrics and add new alert functionalities, improving proactive issue identification for the support team.

Dealer Support Portal Development (HCL Technologies)

- Contributed to the development of a new dealer support portal, focusing on user interface improvements and backend integration with existing systems.
- Implemented RESTful APIs using Java Spring Boot to facilitate data exchange between the portal and core financial services applications.
- Assisted in UAT coordination and post-go-live support, gathering feedback from dealer network representatives to inform future enhancements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS
