HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling cross-service data exchange and request validation.
- Implemented robust error handling and retry mechanisms within **Java applications**, improving system resilience and reducing cascading failures.
- Designed and optimized relational database schemas and queries using **Hibernate and JPA** for a core financial services data platform.
- Collaborated with sales teams to understand customer needs and translate them into technical requirements for **solution demonstrations**.
- Engaged with clients to conduct technical discovery sessions, gathering requirements and mapping business processes to **Salesforce solutions**.
- Participated in **Agile ceremonies**, including sprint planning and backlog grooming, contributing to team velocity and accurate technical estimations.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.

SKILLS

Core Technologies – Java, Spring Boot, REST APIs, Python, SQL, Docker, Git, Linux

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle, JPA, Hibernate

Development Tools – Jenkins, Jira, Confluence, Maven, Gradle

Analytics & BI – Power BI, Tableau, R, pandas, NumPy, scikit-learn

Salesforce Ecosystem – CRM, Solution Engineering, Sales Development, Customer Discovery

Languages – English, German

PROJECTS

Customer Onboarding Automation for Enterprise CRM

- Developed a Python-based automation suite to streamline the onboarding process for new enterprise clients integrating with a CRM platform, reducing manual setup time by approximately 40%.
- Built interactive dashboards using **Power BI** to visualize onboarding progress and identify bottlenecks for account management stakeholders.
- Collaborated with client success managers to gather requirements and refine the automation workflows based on feedback from initial customer deployments.

Java-based Financial Transaction Monitoring Service

- Engineered a **Java Spring Boot** microservice to process and monitor financial transaction messages, integrating with PostgreSQL for data persistence.
- Implemented asynchronous processing using message queues to handle high volumes of transactions, improving throughput by over 30% during peak hours.
- Developed RESTful APIs for querying transaction status and generating operational reports, facilitating real-time insights for business analysts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
