HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs supporting core business logic for enterprise applications, handling approximately 800 requests per minute.
- Refactored and optimized complex **SQL queries across PostgreSQL and Oracle databases**, improving data retrieval efficiency for critical operational reports by an average of 28%.
- Authored **Python scripts** for automating data validation and ETL processes, reducing manual processing time for daily reconciliation tasks by 4 hours.
- Collaborated with cross-functional teams to gather requirements and define technical specifications for new feature development, ensuring alignment with business objectives.
- Managed production incidents for enterprise applications using **Splunk and Dynatrace**, contributing to a 95% resolution rate within defined SLA targets.
- Implemented CI/CD pipelines using **Jenkins and Git** for automated builds and deployments, increasing deployment frequency by 30%.
- Containerized multiple Java applications using **Docker**, preparing them for deployment on cloud infrastructure and improving environment consistency.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, Linux

Methodologies – Agile, Scrum

PROJECTS

Enterprise Application Support Dashboard

- Developed a **Java Spring Boot** application to aggregate and display real-time operational metrics from various enterprise systems, aiding in faster incident detection.
- Integrated with **Splunk and Dynatrace** APIs to pull logs and performance data, presenting key alerts and error patterns on a centralized dashboard.
- Implemented RESTful endpoints for ad-hoc data retrieval, enabling operations teams to perform targeted data analysis during critical P1/P2 incidents.

Automated Data Pipeline for Environmental Reporting

- Engineered a **Python**-based data pipeline to extract, transform, and load environmental sensor data from multiple sources into a central data store.
- Applied **pandas** for data cleaning and transformation, handling missing values and standardizing formats for approximately 50,000 daily data points.
- Developed scheduled reporting modules that generated summary statistics and visualizations, supporting compliance requirements for environmental impact assessments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
