HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling approximately 1,500 requests per minute during peak hours.
- Implemented data persistence layers using **Hibernate** and **JPA**, managing complex object-relational mappings for financial transaction data.
- Authored **JUnit** tests and utilized **Mockito** for unit and integration testing of Java services, achieving over 85% code coverage for new feature development.
- Managed and responded to P1/P2 incidents for critical enterprise applications, reducing average resolution time by 18% through refined troubleshooting procedures.
- Wrote Python scripts to automate data extraction and transformation tasks, processing over 50,000 records daily for scheduled operational reports.
- Designed and deployed containerized Java applications using **Docker** on **AWS EC2** instances, improving deployment consistency across development and production environments.
- Collaborated with cross-functional teams to define requirements and troubleshoot issues for an enterprise resource planning system integration.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Domain – Enterprise Systems Support, Financial Operations Dashboard, Payments Processing, Transaction Monitoring, Reconciliation Workflows, GDPR Compliance

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java modules into a modular Spring Boot application, improving maintainability and reducing bug reports by 22%.
- Implemented asynchronous communication patterns using message queues to decouple services, enhancing system resilience and data flow integrity.
- Integrated a new RESTful API layer using Spring Boot to expose core business logic for consumption by internal enterprise clients.

Automated Reporting Pipeline (HCL Technologies)

- Developed a Python-based ETL pipeline to aggregate data from PostgreSQL and Oracle databases for daily operational reporting, reducing manual effort by approximately 15 hours per week.
- Created SQL scripts for data validation and cleansing, ensuring the accuracy of approximately 30,000 records processed per daily run.
- Scheduled and monitored pipeline execution using cron jobs on Linux servers, ensuring timely delivery of reports to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
