PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **2nd line support** for enterprise applications, escalating and resolving complex incidents impacting **network, server, and application** performance.
- Managed incident lifecycles from ticket creation to resolution for escalated issues, documenting root causes and solutions within the **ticketing system**.
- Collaborated with client IT teams and business analysts to gather requirements, coordinate user acceptance testing, and perform post-implementation triage for system updates.
- Developed **Python scripts** to automate routine tasks and data validation processes, improving operational efficiency for the support team.
- Maintained accurate records of incidents and solutions, preparing **regular reports** on system trends and recurring issues for process improvement initiatives.
- Participated in Agile ceremonies, including sprint planning and retrospectives, contributing to continuous improvement of service delivery processes.
- Containerized applications using **Docker** and managed deployments on **AWS EC2 instances**, ensuring efficient resource utilization.

SKILLS

Support – 2nd Line Support, Incident Management, Root Cause Analysis, Ticketing Systems, IT Support

Operating Systems – Linux, Windows

Scripting & Automation – Python, Shell Scripting

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Jira, Confluence

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Provided critical **production support** for enterprise Java and .NET applications, ensuring adherence to strict SLAs and managing P1/P2 incidents.
- Automated data validation and report generation tasks using **Python scripts**, reducing manual effort by approximately **15 hours per week**.
- Developed and maintained comprehensive **runbooks and documentation** for incident response, enabling faster resolution times for common issues.

IT Service Desk Enhancement Project (MSc Applied Project)

- Designed and implemented improvements for an IT service desk workflow, focusing on **incident categorization and escalation** procedures.
- Created **Power BI dashboards** to visualize ticket trends, resolution times, and common issue categories, providing actionable insights to management.
- Documented best practices for user support interactions, contributing to a more consistent and **service-centric** approach within the team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
