HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately 500 requests per second during peak load.
- Implemented complex object-relational mapping logic using **Hibernate** and **JPA**, streamlining data access for core enterprise services and reducing query complexity by **40%**.
- Designed and implemented JUnit test suites and Mockito mocks for **Java** backend services, increasing code coverage by **22%** and reducing post-deployment defects.
- Collaborated with cross-functional teams to define and estimate technical requirements for new feature development within an **Agile/Scrum** framework.
- Participated in code reviews for peer engineers, ensuring adherence to coding standards and best practices for **Java** applications.
- Containerized microservices using **Docker**, enabling consistent deployment across development, staging, and production environments managed via **Jenkins** pipelines.
- Analyzed and resolved production incidents, performing root cause analysis using **Splunk** and **Dynatrace** logs to maintain service level agreements.

SKILLS

Languages – Java, Python, SQL, R, English

Frameworks/Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, FastAPI, Flask

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

High-Throughput Java Service for Data Ingestion

- Engineered a **Java Spring Boot** application to ingest and process high volumes of data streams, achieving a throughput of **~3,200 events per second**.
- Integrated with **PostgreSQL** using **Hibernate** for persistent storage of processed records, ensuring data integrity and efficient retrieval for downstream analytics.
- Containerized the application with **Docker** and deployed it to an **AWS EC2** instance managed by a **Jenkins** CI/CD pipeline for automated builds and deployments.

Real-Time Data Analytics Dashboard

- Developed interactive **Power BI** dashboards to visualize key operational metrics derived from enterprise systems, enabling stakeholders to monitor performance trends.
- Designed and implemented complex **DAX** measures and Power Query transformations to aggregate and analyze data from multiple sources, improving data accessibility for business users.
- Managed the data modeling and report publishing process, delivering actionable insights to an audience of **15+ business stakeholders**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
