PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices for enterprise applications, implementing RESTful APIs to support core business functions.
- Refactored and optimized **Hibernate** queries for critical data retrieval operations, reducing average response times by **18%** across key reporting modules.
- Authored **JUnit** and **Mockito** test suites for new Java features, achieving over **90%** code coverage and ensuring application stability.
- Collaborated with finance stakeholders to gather requirements for new data analytics capabilities, translating business needs into technical specifications for reporting tools.
- Developed **Python** scripts to automate data extraction and transformation tasks from diverse enterprise systems, streamlining ETL processes for the finance team.
- Interpreted complex datasets using **Microsoft Excel**, performing financial analysis and building detailed reports to support strategic decision-making.
- Managed production support for enterprise applications, responding to P1/P2 incidents within defined SLAs and performing root cause analysis using **Splunk** and **Dynatrace**.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Business Intelligence & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis, A/B Testing

Enterprise Systems & Tools – Jira, Confluence, ERP Support, Change Management, Microsoft Excel

Domain Knowledge – Financial Planning & Analysis, Financial Reporting, Commercial Finance, Business Partnering, Data Analytics, Strategic Projects

PROJECTS

Financial Operations Dashboard Enhancement

- Developed new modules in **Java Spring Boot** to process and display real-time transaction data for a financial services dashboard, improving operational visibility.
- Integrated **PostgreSQL** data feeds and optimized SQL queries to support enhanced reconciliation workflows, reducing data processing latency by **15%**.
- Collaborated with business analysts to refine alert configurations and reporting outputs, ensuring timely identification of failed payment messages.

MSc Data Analytics Capstone Project

- Designed and built interactive **Power BI** dashboards to visualize key performance indicators from a simulated retail sales dataset, enabling stakeholder insights into trends.
- Applied **DAX** measures and **Power Query** for data transformation and complex calculations, creating a unified data model for comprehensive analysis.
- Conducted exploratory data analysis using **Python** (pandas, NumPy) and statistical methods to identify patterns relevant to sales forecasting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
