HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Diagnosed and resolved application and system outages for enterprise Java/.NET applications by analysing logs and performance statistics from **Splunk** and **Dynatrace**, identifying root causes to meet strict SLAs.
- Troubleshot issues across the full stack, including client-side browser debugging using **JavaScript**, backend **REST API** services developed in **Java Spring Boot**, and complex **SQL** database queries.
- Administered and maintained **Linux** environments, including user management, service monitoring via **cron jobs**, and log analysis.
- Developed automation scripts in **Python** to streamline data pipelines and scheduled reporting, reducing manual effort by approximately **15%**.
- Managed and configured **AWS** resources including EC2, S3, and Lambda, integrating them into existing production workflows.
- Collaborated with development teams to validate fixes and manage code migrations, improving application stability and performance for critical production environments.
- Created and maintained runbooks and SOPs for recurring issues and resolution steps, improving team knowledge sharing and reducing incident response time by an average of **10%**.

SKILLS

Server-Side – PHP, Python, Node.js

Client-Side – HTML, CSS, JavaScript

OS Expertise – Linux, Mac OS

Networking – TCP/IP, DNS, DHCP, HTTP/HTTPS, Firewalls

Databases – SQL, PostgreSQL, MySQL, Oracle

Scripting – Bash, Python

Cloud & DevOps – AWS, Docker, Jenkins, Git

PROJECTS

Full-Stack Application Support Enhancement

- Developed a **Python**-based diagnostic tool to automatically parse application logs from **Splunk** and identify common error patterns, reducing manual analysis time by **30%**.
- Implemented automated health checks for key **Java Spring Boot** microservices running on **AWS EC2** instances, integrated with **CloudWatch** for proactive alerting.
- Designed and documented troubleshooting guides for the top 5 recurring P1 incidents, forming the basis of new knowledge base articles.

Linux System Automation and Monitoring

- Created **Bash** scripts to automate routine **Linux** server maintenance tasks, including log rotation and disk space monitoring across a fleet of 50+ servers.
- Configured **Dynatrace** agents for enhanced application performance monitoring and synthesized key metrics into actionable dashboards for the operations team.
- Refactored existing **Python** ETL scripts to improve data processing efficiency for financial transaction data, cutting runtime by **18%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
