PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland

Jul 2026 – Present

- Review and action user-generated content and account reports against a large-scale online platform's community standards and policies.
- Investigate escalated abuse cases including harassment, hate speech, scams, inauthentic behaviour, and graphic content.
- Document content enforcement decisions, ensuring accuracy and adherence to policy guidelines.
- Identify and flag emerging abuse trends through careful **content review** and analysis of user reports.

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, building REST APIs for data access and system integration.
- Implemented Python scripts for data pipelines and automated reporting, supporting data validation processes.
- Managed SQL database schemas and performed ad-hoc queries for data analysis and validation in enterprise applications.
- Provide production support for enterprise applications, managing SLAs and responding to P1/P2 incidents.
- Monitor application health using Splunk and CloudWatch, identifying and resolving operational issues.
- Respond to escalated incidents, documenting resolution steps and communicating with stakeholders.
- Analyze application logs and system performance metrics to identify potential risks and patterns.

SKILLS

AI & Copilot Studio – Copilot Studio agents, topics, instructions, knowledge sources, actions, triggers, agent flows.

Integration – Dataverse, Microsoft 365, Power Platform connectors, REST APIs, Azure services.

AI Concepts – Generative AI, prompt design, retrieval-grounded solutions, agent orchestration.

Governance & Security – Authentication, governance, responsible AI guardrails, Power Platform governance, security roles, environment strategy.

Development Practices – Agile delivery, solution-aware ALM, CI/CD, release and support processes, testing for accuracy, safety and performance.

Documentation – Maintain solution documentation.

PROJECTS

Customer Churn Prediction (MSc Data Analytics)

- Developed a predictive model using Python (pandas, scikit-learn) to identify users at risk of churn.
- Performed exploratory data analysis and feature engineering on customer behaviour data to inform model development.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
