PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland

Jul 2026 – Present

- Review user-generated content and account reports against **community standards** and policies for a large-scale online platform.
- Investigate escalated abuse cases, including harassment, hate speech, scams, and inauthentic behaviour, ensuring accurate **policy enforcement**.
- Document enforcement decisions and identify emerging abuse trends to inform platform safety strategies.
- Meet quality audit, calibration, accuracy, and productivity targets for content review and account actions.

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, implementing REST APIs for data validation and rule-based checks.
- Wrote Python scripts to automate data pipelines and generate scheduled reports for operational monitoring.
- Managed SQL databases (PostgreSQL, MySQL, Oracle) for ad-hoc queries and data validation supporting investigations.
- Monitored enterprise applications using Splunk and CloudWatch, managing SLAs and responding to P1/P2 incidents.
- Handled production support for a financial-services client's payments operations dashboard, tracking transaction flows.
- Trained on runbooks and responded to operational alerting for failed or stuck payment messages.
- Collaborated with operations and business analysts for requirements, UAT support, and post-implementation triage.

SKILLS

Data Analysis – Identifying trends, generating summary statistics, drawing insights from quantitative and qualitative data.

Engineering Skills – Python, SQL, ML design, ML infrastructure (model deployment, evaluation, data processing, debugging, fine tuning).

Risk & Abuse – Experience working with abuse, spam, fraud, malware, product policy analysis, policy risks, CBRN and cyber threat risks in GenAI.

Analytical Methods – Statistical analysis, hypothesis testing, analyzing ML models performance, working on LLMs.

Productivity & Collaboration – Establishing metrics, developing datasets, running evals, technical judgement, project delivery, operational workflows, process improvements, automation opportunities.

Content Review – Reviewing graphic, controversial, sensitive content, community standards, policy enforcement, escalations.

PROJECTS

Financial Transaction Anomaly Detection (MSc Data Analytics)

- Developed Python scripts using pandas and scikit-learn to analyze transaction data for suspicious patterns.
- Created Power BI dashboards to visualize transaction flows and highlight potential areas of fraud or abuse.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
