PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Executed daily start-up checks on plant machinery across the factory floor, ensuring operational readiness and adherence to safety protocols.
- Managed swift and safe execution of all machinery breakdowns, diagnosing issues and implementing repairs to minimize production downtime.
- Implemented and meticulously followed the preventative maintenance schedule for critical plant equipment, contributing to overall operational efficiency.
- Collaborated with Site Engineering Managers and Planners to execute the site maintenance program, supporting compliant and reliable plant operations.
- Contributed to the development and execution of a Root Cause Failure Analysis Program, assisting in the reduction of general equipment breakdowns.
- Ensured all servicing and maintenance tasks were performed in an efficient, safe, and hygienic manner, upholding high operational standards.

SKILLS

Maintenance & Operations – Preventative Maintenance, Root Cause Analysis, Machinery Repair, Start-up Checks, Site Maintenance Program, Production Support

Manufacturing Environment – Fast-Paced Manufacturing, Food Manufacturing Environment, Plant Equipment, Refrigeration Systems, Plumbing Systems

Safety & Compliance – Health & Safety Policy, Environmental Requirements, Safe Work Practices, Hygiene Standards

Teamwork & Communication – Team Collaboration, Communication Skills, Interpersonal Skills, Taking Direction, Constructive Challenge

Tools & Systems – Jira, Confluence, Linux Shell Scripting, Cron Jobs, SQL (PostgreSQL, MySQL, Oracle)

PROJECTS

Site Maintenance Program Execution (HCL Technologies)

- Supported the execution of a site maintenance program for enterprise systems, aligning with operational compliance and reliability goals.
- Assisted in developing and implementing preventative maintenance schedules for critical infrastructure components, ensuring consistent system availability.
- Managed incident response and triage for system-related disruptions, ensuring swift resolution and minimal impact on daily operations.

Root Cause Failure Analysis Initiative (HCL Technologies)

- Contributed to a Root Cause Failure Analysis initiative focused on reducing recurring equipment failures in a production environment.
- Documented failure modes and repair actions, creating a knowledge base to support future troubleshooting and maintenance efforts.
- Collaborated with operational teams to gather data and insights for detailed failure analysis reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
