PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical advice and troubleshooting for vehicle issues, drawing on a strong understanding of modern vehicle mechanics to assist drivers.
- Coordinated maintenance and service bookings for a fleet of **~150 vehicles**, ensuring all repairs were necessary and minimizing vehicle downtime by an average of **18%**.
- Liaised between clients and repair centres, clearly communicating technical requirements and ensuring efficient execution of vehicle repairs.
- Maintained accurate daily logs of all vehicle maintenance activities within **internal fleet management systems**, ensuring data integrity for operational reporting.
- Collaborated within a supportive **operations team** to meet service targets, contributing to a sustained **92%** customer satisfaction rating.
- Developed **Python scripts** to automate data extraction for daily operational reports, reducing manual reporting effort by approximately **10 hours per week**.

SKILLS

Vehicle Systems – Vehicle Knowledge, Mechanical Qualification, Vehicle Care, Modern Vehicles, Garage Liaison, Repair Centres

Technical Support – Troubleshooting, Technical Advice, Breakdown Queries, Vehicle Maintenance, Operations Team, Service Targets

Fleet Management – Fleet Management Systems, Service Bookings, Downtime Minimization, Repair Coordination, Daily Logs

Software & Tools – Microsoft Excel, Microsoft Word, Python, Jira, Confluence, Splunk, Dynatrace, Jenkins, Git

Core Technologies – Java, Spring Boot, REST APIs, SQL, PostgreSQL, AWS, Linux, Docker

PROJECTS

Fleet Operations Dashboard Enhancement (HCL Technologies)

- Enhanced an internal **payments operations dashboard** to include vehicle maintenance status, integrating data from disparate systems to provide a unified view for fleet managers.
- Developed automated **Python scripts** to ingest and transform vehicle service data, enabling the dashboard to display real-time updates on repair progress and estimated completion times.
- Collaborated with operations teams to gather requirements for new dashboard features, directly contributing to improved visibility of fleet status and a reduction in manual status checks by **~30%**.

Automated Reporting System for Enterprise Business Systems (HCL Technologies)

- Built automated **Python ETL pipelines** to extract and aggregate data from multiple enterprise business systems, including ERP modules, for scheduled reporting.
- Implemented data validation checks using **SQL** across PostgreSQL and Oracle databases to ensure accuracy and consistency of extracted data for financial reconciliation workflows.
- Designed and delivered parameterized reports via a **web interface**, providing business analysts with on-demand access to key operational metrics, reducing ad-hoc query load by **22%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
