PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed client billing operations for a portfolio of high-profile accounts, ensuring accuracy and adherence to strict month-end reporting deadlines within the International Finance Operations team.
- Coordinated with New Business and Client Services teams to ensure timely capture, accrual, and invoicing of new and terminated client business, maintaining accurate financial records.
- Collected fee debtors by generating payment instructions and banking entries in line with agreed company and client procedures, contributing to the team's revenue collection targets.
- Developed and maintained strong working relationships with Client Services and Business Operations teams, facilitating efficient resolution of client and business finance queries.
- Implemented enhancements to fee-related controls in adherence to SOX and audit requirements, strengthening the overall compliance framework for the Global Fees Management function.
- Participated as a Subject Matter Expert in cross-functional projects focused on fee-related process changes and system enhancements, ensuring seamless integration and adoption.

SKILLS

Finance Operations – Client Billing, Revenue Recognition, Fee Collection, Month-End Close, Accruals, SOX Compliance, Audit Support

Client Management – Client Services Liaison, Business Operations Collaboration, Stakeholder Communication, Query Resolution

Data Analysis & Reporting – MS Excel (Advanced), Data Validation, Financial Reporting, Analytical Skills

Project Management & Process Improvement – Process Mapping, Change Management, System Enhancements, Subject Matter Expertise

Core Technologies – SQL, Python, Java, Spring Boot, AWS, Linux, Git, Jenkins, Jira, Confluence

PROJECTS

Automated Fee Accrual System (HCL Technologies)

- Developed a Python-based automation script to streamline the calculation and reporting of fee accruals for enterprise clients, reducing manual effort by approximately 40%.
- Integrated the script with PostgreSQL to extract relevant client contract data and generated formatted reports compatible with the existing financial operations dashboard.
- Collaborated with business analysts to define requirements and ensure the automation accurately reflected complex fee structures and client agreements.

Client Billing Reconciliation Dashboard (HCL Technologies)

- Designed and implemented a Power BI dashboard to visualize key client billing metrics, including invoice status, payment timeliness, and outstanding debtors.
- Utilized Power Query for data extraction and transformation from multiple SQL (PostgreSQL, Oracle) sources, building a cohesive data model for reporting.
- Provided interactive reports and data visualizations to operations teams, enabling faster identification of billing discrepancies and improving overall reconciliation efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS
