PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented secure, scalable **CI/CD pipelines** in **GitLab CI**, automating build, test, and deployment processes for internal tools, reducing manual intervention by an estimated **40%**.
- Managed and optimized **cloud-native infrastructure** on **AWS** using **Terraform**, ensuring consistent and reproducible environments for development and testing teams.
- Deployed and operated containerized workloads using **Docker** and basic **Kubernetes** orchestration, enhancing application portability and simplifying environment management.
- Implemented comprehensive **monitoring, logging, and alerting frameworks** using **Splunk** and **CloudWatch**, improving system observability and enabling faster incident response times.
- Authored **Python scripts** to automate routine DevOps tasks, including infrastructure provisioning, data validation, and log analysis, saving approximately **5 hours** of engineer time per week.
- Contributed to the integration of **secrets management** solutions within development workflows, ensuring secure handling of credentials across various cloud services and applications.

SKILLS

Cloud & Infrastructure – Azure DevOps, GitLab CI, AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Terraform, CloudFormation, Bicep/ARM

Programming & Scripting – Python, Bash, PowerShell, Java, Spring Boot, .NET

CI/CD & Version Control – Jenkins, Git, code reviews

Observability & Monitoring – Splunk, Dynatrace, distributed tracing, health checks

Networking & Security – VPNs, firewall settings, secrets management (Azure Key Vault, Vault), vulnerability scanning, dependency management

Development Practices – Infrastructure-as-Code (IaC), DevSecOps, Agile/Scrum, systems thinking, troubleshooting

PROJECTS

Automated Cloud Environment Provisioning (HCL Technologies)

- Developed a **Terraform** module to automate the provisioning of **AWS** development and staging environments, ensuring consistency across multiple project teams.
- Integrated **Python scripts** to manage environment configurations and application deployments within the provisioned infrastructure, reducing setup time for new projects by **~60%**.
- Implemented basic **monitoring and logging** using **CloudWatch** agents within the automated environments to provide initial visibility into application performance.

Containerized Application Deployment Pipeline (HCL Technologies)

- Built a **CI/CD pipeline** using **Jenkins** and **GitLab CI** to automate the build, testing, and deployment of containerized Java Spring Boot applications.
- Managed application deployments to **Docker** containers, ensuring efficient resource utilization and simplifying the release process for a suite of internal tools.
- Wrote comprehensive documentation and runbooks for the deployment process, enabling smoother handoffs to operations teams and reducing troubleshooting time by an estimated **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
