## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and deployed **CI/CD pipelines** using **GitHub Actions** to automate testing and deployment for AI-driven applications, reducing manual intervention by **40%**.
- Collaborated with cross-functional engineering and QA teams to ensure the secure, scalable, and efficient delivery of microservices on **Azure**.
- Automated infrastructure provisioning and configuration management using **Bicep** and **Ansible**, enhancing deployment speed and consistency by **30%**.
- Implemented comprehensive monitoring and logging solutions with **Azure Monitor** and **Grafana**, enabling proactive identification and resolution of performance bottlenecks.
- Integrated **Snyk** for automated security vulnerability scanning into the CI/CD workflow, identifying and mitigating an average of **15 critical vulnerabilities** per release cycle.
- Supported production environments for enterprise applications, focusing on incident response, SLA management, and root cause analysis for P1/P2 issues on **Linux**.

## SKILLS

**DevOps & CI/CD** – GitHub Actions, Azure DevOps, Jenkins, Docker, Kubernetes, Helm, Kustomize, Kyverno, CNI

**Cloud Platforms** – Azure (Azure Monitor, Application Insights), AWS (EC2, S3, Lambda, CloudWatch)

**Infrastructure as Code** – Bicep, Terraform, Ansible

**Programming & Scripting** – Python, Java, Spring Boot, Bash

**Observability & Security** – Grafana, Prometheus, Elasticsearch, Azure Monitor, Snyk, Bandit

**Databases & Storage** – PostgreSQL, MySQL, Oracle, S3

**Operating Systems & Tools** – Linux, Git, Jira, Confluence

## PROJECTS

### AI Commerce Platform CI/CD Automation

- Architected and implemented a new **CI/CD pipeline** in **Azure DevOps** for AI commerce microservices, integrating **Docker** containerization and automated testing stages.
- Developed **Python scripts** to automate deployment processes and infrastructure updates on **Azure**, reducing manual deployment time by approximately **50%**.
- Configured **Azure Monitor** and **Elasticsearch** for centralized logging and performance tracking of the deployed services, improving issue detection time.

### Secure Microservice Deployment Framework

- Built a reusable framework for deploying microservices using **Kubernetes** and **Helm**, incorporating security best practices like **Kyverno** for policy enforcement.
- Integrated **Snyk** into the build process to automatically scan container images for vulnerabilities, catching over **20 high-severity issues** during development.
- Documented deployment procedures and provided training materials to development teams, enabling them to independently deploy their services to the **Kubernetes** cluster.

## EDUCATION

**M.Sc. Data Analytics** — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science** — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
