PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported complex and non-standard **pricing and rebating requests**, ensuring strict alignment with established pricing policies for enterprise clients.
- Reviewed and validated intricate **discount application logic** and rebate structures, ensuring **operational accuracy** and compliance across multiple transaction streams.
- Served as a subject-matter expert for intricate pricing scenarios and edge-case rebate calculations, resolving **~15 complex cases** per week.
- Partnered effectively with Sales and Distributor teams to provide pre-pricing support, facilitating timely and accurate quote generation for key accounts.
- Participated in process standardization initiatives, contributing practical feedback from day-to-day operations to simplify and improve **rebating workflows** and controls.
- Collaborated with Business Operations and Sales teams on the adoption of new **AI-driven tools** and workflows, integrating them into existing operational governance models.

SKILLS

Sales Operations – Quoting, Rebating, Pricing, Sales Support, Deal Desk, MeetComp

Systems & Tools – Salesforce, Model N, CRM Systems, Pricing Systems, Jira, Confluence

Process & Governance – Pricing Governance, Discount Structures, Rebate Programs, Operational Controls, Process Improvement, Compliance

Technical Skills – SQL, Python scripting, REST APIs, Java Spring Boot, AWS, Linux, Git, Jenkins

Analytics & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Operational Reporting

PROJECTS

Automated Rebate Calculation Engine (HCL Technologies)

- Developed a Python-based engine to automate the calculation of complex customer rebates, processing over **1,200 rebate claims** monthly.
- Integrated the engine with PostgreSQL, enabling dynamic data retrieval for accurate discount application and adherence to pricing policies.
- Designed and implemented a reporting module that generated **15 distinct rebate summary reports** for finance and sales operations teams.

Customer Pricing & Discount Configuration Tool (HCL Technologies)

- Built a Java Spring Boot application that allowed sales operations to configure custom pricing and discount structures for enterprise customers.
- Implemented REST APIs for seamless integration with existing CRM systems, reducing manual data entry by an estimated **30% for sales teams**.
- Managed change control processes for system configurations, coordinating UAT and providing post-go-live support across interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
