PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** applications, implementing new features and resolving bugs in production systems for enterprise clients.
- Automated recurring reporting tasks and data ingestion processes using **Python scripting**, reducing manual effort by approximately 40% for the operations team.
- Managed production incidents and SLA adherence for critical enterprise applications, performing root cause analysis and implementing fixes within defined response times.
- Collaborated with business analysts and operations teams to gather requirements, support UAT, and triage issues for interconnected enterprise systems.
- Designed and implemented **REST APIs** for cross-system integrations, facilitating data exchange between ERP modules and other operational platforms.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for automated builds and deployments, participating in code reviews to ensure quality standards.

SKILLS

Programming Languages – Java, Python, SQL, JavaScript, HTML, CSS, XML

Frameworks & Libraries – Spring Boot, Hibernate, Spring, AJAX, NumPy, pandas, scikit-learn

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, IIS, Linux

Development Tools & Methodologies – Jenkins, Git, Jira, Confluence, Agile, Scrum, REST APIs

Business Intelligence & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Domain Knowledge – Web-based Applications, Networked Components, Payments Operations, Transaction Monitoring, ERP Systems

PROJECTS

Enterprise Application Performance Monitoring and Automation (HCL Technologies)

- Enhanced production monitoring for a suite of Java and .NET enterprise applications using **Splunk** and **Dynatrace**, improving error detection rates by 15%.
- Developed **Python** scripts to automate data validation checks and ETL processes for scheduled operational reports, saving an estimated 8 hours of manual work per week.
- Refactored inefficient database queries in **PostgreSQL**, reducing average execution time for critical reporting functions by 30%.

Integrated Learning Management System Feature Development (MSc Applied Project)

- Designed and implemented user interface components using **HTML**, **JavaScript**, and **CSS** to enhance the usability of a learning management system.
- Built backend services with **Java Spring Boot** to manage course content and user progress, integrating with a **SQL Server** database for data persistence.
- Developed interactive dashboards in **Power BI** to visualize learner engagement metrics and course completion rates for project stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
