PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Oversaw a portfolio of **3 concurrent data center projects** for enterprise clients, ensuring adherence to project timelines and budgets.
- Managed projects involving **Risk Triggering Factors (RTFs)**, proactively identifying and mitigating potential issues to maintain project stability.
- Directed project teams in identifying risks and implementing effective mitigation strategies, ensuring efficient operations and minimizing exposure to contractual claims.
- Supported the full project lifecycle for mission-critical facilities, from concept and design development through procurement, construction, and commissioning.
- Mentored junior project managers on best practices for managing multiple projects or large-scale programs within the data center domain.
- Achieved and maintained targeted profit margins across assigned projects, delivering without financial write-downs or margin erosion.

SKILLS

Project Management – Data Centers, Colocation Facilities, Risk Management, Client Engagement, Program Management, Financial Oversight

Technical Skills – Java, Python, SQL, Spring Boot, AWS, Docker, Linux, Git, Jenkins

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, ETL

Operations & Support – Production Support, Incident Response, SLA Management, Monitoring (Splunk, CloudWatch, Dynatrace)

Enterprise Systems – ERP Systems, REST APIs, Change Management, System Integration

PROJECTS

Data Center Project Portfolio Management (HCL Technologies)

- Managed a portfolio of **4 concurrent data center upgrade projects**, coordinating efforts across design, procurement, and construction phases.
- Implemented a standardized **risk assessment framework**, reducing the occurrence of project-impacting incidents by approximately 18% over six months.
- Facilitated weekly progress review meetings with client stakeholders and internal teams, ensuring clear communication and timely decision-making.

Infrastructure Operations Dashboard Enhancement (HCL Technologies)

- Developed and enhanced operational dashboards using **Power BI** to provide real-time insights into system performance and availability for financial services clients.
- Automated data ingestion and transformation processes using **Python scripting and Power Query**, reducing manual reporting effort by an estimated 15 hours per week.
- Collaborated with business analysts to gather requirements for new dashboard features, improving data visibility for transaction monitoring workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
