PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Produced and validated actuarial liability data and reserves for **IFRS and SII reporting**, ensuring accuracy for financial statements.
- Supported the streamlining and automation of existing actuarial reporting processes using **Python scripting**, reducing manual effort by an estimated **20%**.
- Assisted in the production of solvency capital projections and movement analysis for the company's **ORSA Recovery Plan**, contributing to strategic financial planning.
- Contributed to the development and maintenance of the **Internal Model** for risk management, supporting the validation of capital calculations.
- Generated operational reports and dashboards using **Power BI** to communicate risk exposures and movements to business stakeholders and risk committees.
- Provided actuarial support on various project initiatives, including data analysis and model development for new product launches and **hedging strategies**.

SKILLS

Actuarial & Risk – Actuarial Liability Data, Economic Scenarios, Actuarial Reserves, Solvency II, Internal Model, ORSA, Risk Dashboards, Hedging Strategy

Data Analysis & BI – Power BI, DAX, Tableau, R, RStudio, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Programming & Scripting – Python, pandas, NumPy, scikit-learn, Java, Spring Boot, SQL, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD

Business Systems & Processes – ERP Integration, Change Management, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Actuarial Reporting Automation & Validation (HCL Technologies)

- Developed Python scripts to automate the extraction and validation of actuarial liability data from disparate sources, reducing manual processing time by **35%**.
- Constructed interactive **Power BI dashboards** to visualize key actuarial metrics and track discrepancies in IFRS and SII reporting, enabling faster issue identification for a team of 8 analysts.
- Collaborated with business analysts to refine data validation rules for economic scenarios, ensuring adherence to regulatory reporting standards and improving data integrity.

Risk Management Dashboard & Model Support (HCL Technologies)

- Assisted in the development of a risk management dashboard using **Tableau** to present Solvency II capital calculations and movement analysis, providing stakeholders with clear insights into risk exposure.
- Supported the ongoing maintenance of an internal risk model by performing data quality checks and generating reports on model performance metrics.
- Wrote SQL queries against PostgreSQL to extract and aggregate data for risk projections and analysis, supporting the annual assumption setting exercise.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
