PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Documented business objectives, specifications, and requirements for medium-to-large reporting initiatives, ensuring alignment between technical teams and business stakeholders.
- Provided technical support to business users on the reporting application suite, resolving approximately 45 support tickets per quarter related to data discrepancies and application functionality.
- Conducted workshops and training sessions for end-users on new reporting features, developing comprehensive user manuals that reduced onboarding time for new team members by **15%**.
- Assisted developers by analyzing and identifying areas for system enhancements within the reporting platform, contributing to a **20%** reduction in critical bug reports post-implementation.
- Managed the full lifecycle of reporting requests from initial scoping through to UAT support and post-implementation triage, ensuring projects remained on budget and on schedule.
- Gathered and analyzed customer requirements for reporting solutions, translating complex business needs into detailed technical specifications for development teams.

SKILLS

Business Analysis – Requirements Gathering, Business Objectives, Specifications, SDLC, Quality Validation, UAT Support, Process Mapping, Change Management, Reporting Applications

Data Analysis & Reporting – MS SQL, Excel, Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Data Visualisation

Technical Support – Application Support, Troubleshooting, Incident Response, User Training, User Manuals

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL (PostgreSQL, MySQL, Oracle)

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Methodologies – Agile, Scrum

Domain Knowledge – Fund Services Reporting, Financial Services, Enterprise Systems

PROJECTS

Enterprise Reporting Enhancement Initiative

- Analyzed and documented requirements for a critical reporting enhancement project impacting **fund services operations**, translating business needs into detailed technical specifications.
- Collaborated with developers to implement system enhancements within the reporting application suite, leading to a **25%** improvement in report generation speed.
- Developed comprehensive user manuals and conducted training sessions for **30+ business users** on the updated reporting functionalities, significantly improving adoption rates.

Cross-System Integration for Operational Dashboards

- Designed and documented integration specifications for connecting disparate enterprise systems to a central operational dashboard, facilitating data flow across **PostgreSQL and Oracle databases**.
- Developed Python scripts to automate data extraction and transformation for dashboard reporting, reducing manual effort by approximately **18 hours per week** for the operations team.
- Provided post-implementation technical support and troubleshooting for the integrated dashboard, resolving an average of **5 critical issues** per month.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
