PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a shift of 8 **Manufacturing Process Technicians** to achieve production targets in accordance with GMP and safety standards, contributing to the successful output of ~3,500 drug product units per shift.
- Facilitated daily scheduling and team meetings, aligning groups on critical activities to meet the manufacturing plan for the formulation and aseptic filling lines.
- Drove problem-solving efforts on the shift, collaborating with **Quality, Maintenance, and Engineering** teams to minimize schedule disruptions and maintain operational flow.
- Supported the commissioning and qualification of new drug product filling lines, ensuring readiness for product transfer and integration into existing operations.
- Ensured the team compiled, maintained, and reviewed batch records and associated documentation using **Electronic Batch Records (EBRs)** and SOPs, contributing to regulatory compliance.
- Implemented **lean practices** and supported continuous improvement opportunities, analyzing workflow bottlenecks to enhance process efficiency by approximately 15%.

SKILLS

Manufacturing & Operations – Good Manufacturing Practices (GMP), Aseptic Manufacturing, Formulation, Drug Product Manufacturing, Production Scheduling, Lean Manufacturing, Continuous Improvement, EH&S;

Leadership & People Management – Team Leadership, Performance Management, Coaching, Mentoring, Team Development, Training Needs Analysis, Maximizing Amgen's Performance (MAP)

Quality & Compliance – Quality Assurance (QA), Quality Control (QC), Regulatory Audits (FDA, HPRA), Electronic Batch Records (EBRs), Standard Operating Procedures (SOPs), Cleanroom Operations

Technical Skills – Process Technicians, Commissioning, Qualification, Product Transfer, Problem-Solving, RFT Techniques

Systems & Tools – Electronic Batch Records (PAS/X), Quality Tracking System (QMTS), Personnel Performance Tracking (MAPs), Microsoft Office Suite

Domain Knowledge – Syringe Manufacturing, Biotechnology, Therapeutics, Clinical Study Design and Analysis

PROJECTS

Aseptic Filling Line Commissioning Support

- Assisted in the commissioning and qualification activities for a new aseptic filling line, focusing on process validation and adherence to GMP standards.
- Collaborated with cross-functional teams including Engineering and Quality Assurance to troubleshoot and resolve technical issues identified during the qualification phase.
- Contributed to the development of operational readiness documentation and training materials for the new filling line's support staff.

Process Optimization for Pharmaceutical Production

- Analyzed production workflows on the formulation and filling lines to identify areas for efficiency improvement, applying lean manufacturing principles.
- Implemented minor process adjustments that reduced batch cycle times by an average of 12% and improved material yield.
- Facilitated root cause analysis for production deviations, contributing to a reduction in recurring issues by approximately 20%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
