PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Python scripting** for automating data ingestion and ETL processes, reducing manual processing time by approximately **40%** for core operational reports.
- Developed and maintained **Java Spring Boot** microservices, building **REST APIs** that facilitated cross-system data exchange and integration for enterprise business systems.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict service level agreements.
- Authored **SQL queries** across **PostgreSQL** and **MySQL** for data validation, ad-hoc reporting, and schema evolution tasks supporting critical business operations.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for automated builds, testing, and deployments, improving release cycle efficiency for internal tools.
- Collaborated with operations teams and business analysts on a **payments operations dashboard**, focusing on transaction monitoring and troubleshooting failed payment messages.

SKILLS

Core Technologies – Python, Java, SQL, Spring Boot, REST APIs, Linux, Git, Jenkins, Docker

Cloud & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, CI/CD

Systems & Automation – Robotic Systems Solutions (RSS), Scripting, ETL, Automation, Data Pipelines

Domain Exposure – Robotics, Embedded Systems, Motion Control, Sensing, Connectivity, Hardware Bring-up, Firmware

PROJECTS

Robotics System Integration Prototype (HCL Technologies)

- Developed a prototype system integration for a simulated robotics platform, combining **Python** scripting for control logic and **REST APIs** for inter-component communication.
- Designed and implemented data telemetry collection and logging mechanisms using **AWS Lambda** and **S3** to capture system performance metrics during prototype testing.
- Authored integration guides and design documents detailing system architecture, data flows, and potential pitfalls for future product teams.

Automated Data Pipeline for Operations Dashboard (HCL Technologies)

- Engineered an automated **Python** data pipeline to ingest and process transaction data from multiple sources, feeding a **payments operations dashboard**.
- Implemented data validation checks and error handling within the pipeline, reducing data discrepancies reported by the operations team by approximately **15%**.
- Configured scheduled reporting jobs using Linux cron and shell scripting to deliver daily operational summaries.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
