PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **hardware, software, and network issues** across macOS, ChromeOS, and iOS environments, resolving an average of 15 tickets daily via the ticketing system and Slack.
- Administered core **SaaS platforms** including Google Workspace and GitHub, supporting user lifecycle workflows such as onboarding and offboarding for a rapidly scaling organization.
- Developed **Python scripts** to automate repetitive IT support tasks, reducing manual effort for common user requests by approximately 40% and streamlining operational workflows.
- Contributed to the enhancement of **device management systems**, ensuring consistent configuration profiles and policy enforcement across a fleet of employee endpoints.
- Authored and maintained comprehensive **internal documentation**, including runbooks and how-to guides, which improved new hire onboarding efficiency by an estimated 30%.
- Collaborated with IT Engineering to troubleshoot and resolve complex **escalations**, coordinating across multiple teams to ensure timely issue resolution and minimal disruption.

SKILLS

End-User Support – macOS, ChromeOS, iOS, Android, Hardware Troubleshooting, Software Troubleshooting, Network Troubleshooting, Ticketing Systems, Slack, In-Person Support

SaaS Administration – Google Workspace, GitHub, Atlassian Suite, Workspace Management, Permissions Management

Automation & Scripting – Python, Bash, Scripting for Automation, Repetitive Task Automation

Device Management – MDM Fundamentals, Endpoint Management, Enrollment, Configuration Profiles, Policy Enforcement

Identity & Access – SSO, MFA, Directory Services, Access Management, Employee Lifecycle Workflows

Communication & Documentation – Technical Documentation, Runbooks, Knowledge Base Articles, User Guides, Cross-Team Coordination

Networking & Security – Networking Basics (DNS, DHCP, VPNs), Zero-Trust Security Concepts, Endpoint Security Tooling

PROJECTS

IT Onboarding Automation Framework (HCL Technologies)

- Engineered a **Python-based framework** to automate the provisioning of new user accounts and software access for enterprise clients, reducing onboarding time by 25%.
- Developed standardized **runbooks and documentation** for the IT support team to streamline incident response for common user-facing issues, improving first-contact resolution rates.
- Integrated the framework with internal ticketing systems to automatically track and manage onboarding tasks, ensuring compliance and providing clear audit trails.

Internal Knowledge Base Enhancement (MSc Project)

- Designed and implemented a searchable **knowledge base** using Power BI to centralize IT support documentation and common troubleshooting steps for a simulated user base.
- Developed interactive dashboards that identified trends in support requests, enabling proactive identification of areas for process improvement and automation.
- Created user guides and how-to articles within the knowledge base, improving self-service resolution rates by 15% in pilot testing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
