PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **SwiftUI applications** for device management, contributing to the core functionality of enterprise asset and software distribution services.
- Collaborated with senior engineers on the **Device Management** team to understand and translate business requirements into technical specifications for new features.
- Participated in rigorous **code reviews**, applying Apple's development best practices to enhance code quality and maintainability across the team's codebase.
- Troubleshoot and resolved **software issues** impacting macOS and iOS devices within a large-scale enterprise environment, ensuring minimal disruption to end-users.
- Explored and integrated emerging **AI tools** into existing workflows to identify opportunities for improving engineering efficiency and operational processes.
- Gained hands-on experience working with internal **APIs** for **Asset Management** and Mobile Device Management (MDM) systems, facilitating data exchange and service integration.

SKILLS

Languages – Swift, Python, Java, SQL, R

Frameworks & Libraries – SwiftUI, Spring Boot, pandas, NumPy, scikit-learn

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Tools & Technologies – Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Databases – PostgreSQL, MySQL, Oracle

Concepts – Object-Oriented Design, Agile/Scrum, Device Management (MDM), Asset Management (ITAM), Software Distribution, AI Tools, Generative AI, Data Analytics, Business Intelligence

PROJECTS

Enterprise Device Configuration Service (HCL Technologies)

- Engineered a **Python-based automation service** to manage device configurations across a fleet of 500+ Linux servers, reducing manual intervention by 40%.
- Developed **RESTful APIs using Java Spring Boot** to enable integration with broader enterprise systems, facilitating automated deployment of configuration profiles.
- Implemented **scheduled reporting** via Python scripts to track configuration drift and compliance across managed devices, delivering weekly summaries to operations teams.

Data Analytics Dashboard for Operational Efficiency (MSc Project)

- Designed and built an interactive **Power BI dashboard** to visualize key performance indicators for enterprise system operations, consolidating data from multiple sources.
- Developed complex **DAX measures** and used **Power Query** for data transformation, enabling stakeholders to analyze system performance and identify bottlenecks.
- Modeled and visualized operational data, including incident response times and system uptime metrics, supporting data-driven decision-making for a team of 8 engineers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
