PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and verified map data accuracy against client policies for a global mapping service, ensuring compliance with **business information standards**.
- Engaged with business contacts via outbound phone calls to confirm and validate critical business information, maintaining a high standard of **data integrity** for approximately 40-5 calls per day.
- Updated client platforms with verified business information, demonstrating strong **attention to detail** and adherence to specific data entry protocols.
- Made well-balanced decisions based on market-specific knowledge to assess and correct map data inaccuracies, applying **judgment** in a deadline-driven atmosphere.
- Managed multiple verification tasks concurrently, effectively multi-tasking to meet strict deadlines for map data updates and business information validation.
- Developed and maintained efficient time management and prioritization strategies to work autonomously under pressure, ensuring timely completion of assigned tasks.

SKILLS

Data Verification – Map Data Review, Business Information Accuracy, Client Policies, Market-Specific Knowledge

Communication – Outbound Phone Calls, Written Communication, Oral Communication, Active Listening

Technical Skills – Client Platform Updates, Data Entry, Data Verification Tools

Professional Skills – Attention to Detail, Judgment, Multi-tasking, Deadline-Driven, Time Management, Prioritization, Autonomy, Working Under Pressure

Languages – English (B2/C1), French (B2/C1) OR German (B2/C1)

PROJECTS

Global Business Information Verification Platform (HCL Technologies)

- Developed a standardized workflow for verifying business information across multiple international markets, integrating feedback from **regional operations teams**.
- Implemented data validation checks within the platform to flag inconsistencies and potential policy violations, reducing manual review effort by an estimated **15%**.
- Authored comprehensive documentation and training materials for new team members on verification procedures and platform usage, accelerating onboarding time by **~2 days**.

Enterprise Data Quality Assurance Initiative (HCL Technologies)

- Assessed data quality for key enterprise systems, identifying and categorizing inaccuracies in **client-specific operational data**.
- Collaborated with business analysts to define data quality rules and implement automated checks, improving data accuracy metrics by **~8%** over a quarter.
- Supported UAT for system configuration changes, coordinating with cross-functional teams to ensure smooth deployment and post-implementation stability.
