PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the implementation of **risk management programmes** and **data security** initiatives, contributing to the identification and mitigation of business and digital risks for enterprise clients.
- Assisted in ensuring compliance with **regulatory and legislative requirements**, including **GDPR**, by preparing detailed reports and conducting risk assessments.
- Contributed to technical and operational resilience planning by participating in the documentation of **business continuity** and **disaster recovery** strategies.
- Developed **Python scripts** to automate data extraction and reporting for operational dashboards, improving data availability for analysis by approximately **15%**.
- Managed **incident response** and SLA adherence for critical enterprise applications, analyzing logs using **Splunk** and **Dynatrace** to resolve P1/P2 issues.
- Collaborated with cross-functional teams and **business analysts** to gather requirements for system enhancements and support user acceptance testing (UAT) for interconnected enterprise systems.

SKILLS

Governance, Risk & Compliance – Risk Management, Compliance Programmes, Data Security, Operational Resilience, Business Continuity, Disaster Recovery, Regulatory Compliance, GDPR, ISO Standards, Risk Assessments

Software Development – Java, Spring Boot, REST APIs, Python, .NET, Docker, Git, CI/CD, Jenkins

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, pandas, NumPy

Databases & Cloud – SQL, PostgreSQL, MySQL, Oracle, AWS (EC2, S3, Lambda, CloudWatch)

Operations & Monitoring – Production Support, Incident Response, SLA Management, Splunk, Dynatrace, Linux, Shell Scripting

Project Management & Methodologies – Agile, Scrum, Jira, Confluence, Change Management

PROJECTS

Enterprise Systems Integration & Reporting (HCL Technologies)

- Developed **Java Spring Boot REST APIs** to facilitate data exchange between an ERP system and a financial operations dashboard, enabling real-time data synchronization.
- Created automated **Python ETL scripts** to extract, transform, and load data from various relational databases (PostgreSQL, Oracle) into a central reporting repository, reducing manual data preparation time by **40%**.
- Designed and implemented **Power BI dashboards** that visualized key operational metrics and transaction flows, providing stakeholders with actionable insights for process improvement.

Data Analytics Capstone: Customer Behaviour Analysis (MSc Project)

- Performed exploratory data analysis and hypothesis testing using **R** and **Python (pandas, NumPy)** on a large customer dataset to identify key drivers of engagement.
- Built interactive **Tableau dashboards** to visualize customer segmentation and behaviour patterns, enabling the product team to tailor marketing strategies.
- Applied fundamental **machine learning** techniques (e.g., k-means clustering) to segment customers based on their interaction history, achieving distinct cluster profiles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
