PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented structural element designs in **reinforced concrete** and **steel** for commercial building projects, adhering to project specifications and safety standards.
- Prepared detailed mark-ups and collaborated with structural technicians to produce accurate **Revit** drawings for building components, ensuring constructability.
- Undertook structural analysis using **Tekla Structural Designer** to evaluate load-bearing capacities and structural integrity for various building systems.
- Represented the engineering team in client and consultant meetings, clearly communicating technical design choices and project progress for a new office development.
- Conducted site visits for structural investigations, documenting observations and identifying potential issues for remediation reports on existing structures.
- Authored comprehensive reports and presentations detailing structural findings, design rationales, and recommendations for project stakeholders.

SKILLS

Structural Analysis & Design – GSA, Tekla Structural Designer, Reinforced Concrete, Steel Design, Masonry Design, Timber Design

BIM & CAD – Revit, AutoCAD

Engineering Software – Structural Analysis Software

Project Management – Common Data Environments (ACC), Site Investigations, Report Writing, Presentations

Domain Knowledge – Building Engineering, Civil Structures, Sustainable Design, Structural Investigations

Software Development (from HCL background, for transferable skills) – Java Spring Boot, Python, SQL, AWS, Docker, Jenkins, Git

PROJECTS

Commercial Building Structural Analysis and Design (HCL Technologies)

- Performed detailed structural analysis on a multi-story commercial building project using **Tekla Structural Designer** to assess load distribution and stress points.
- Completed design specifications for key structural elements including **steel beams** and **reinforced concrete** columns, ensuring compliance with Eurocodes.
- Generated preliminary design drawings and collaborated with design technicians to translate analysis into actionable construction plans.

Building Envelope Investigation and Reporting (HCL Technologies)

- Executed structural investigations on an existing building envelope, identifying areas of concern related to material degradation and load-bearing integrity.
- Prepared detailed site reports, including photographic evidence and written assessments, for review by senior engineering staff and clients.
- Developed a standardized checklist for site inspections, improving consistency and thoroughness across multiple investigation projects.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
