PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the design and delivery of **transport infrastructure** projects, collaborating with experienced engineers and multidisciplinary teams to produce detailed **General Arrangement drawings**.
- Contributed to the production of **3D models** using **AutoCAD Civil 3D** and **Revit**, integrating technical specifications under the guidance of senior technicians.
- Supported senior technicians by performing data analysis tasks, extracting relevant information from various sources to inform design options and problem-solving discussions.
- Participated in technical workshops and presentations, contributing ideas and learning from discussions on design solutions for transportation challenges.
- Developed and maintained clear documentation for **transport planning processes**, contributing to the enhancement of good practice within the Arup skills network.
- Managed incoming operational data streams for a **financial-services client's payments dashboard**, ensuring timely ingestion and alerting for over **~3,200 failed transactions** weekly.

SKILLS

CAD & BIM Software – AutoCAD, AutoCAD Civil 3D, Revit

Transportation Planning Concepts – Transport Infrastructure Design, Development Masterplans, Public Realm Schemes, Sustainable Communities, Climate Challenges

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, R, RStudio, Python (pandas, NumPy)

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Enterprise Systems & Support – ERP Integration, Production Support, Incident Response, Change Management, Splunk, Dynatrace

PROJECTS

Transportation Design Support System (HCL Technologies)

- Developed Python scripts to automate the extraction and formatting of **geospatial data** from diverse sources, reducing manual data preparation time by **40%**.
- Built interactive **Power BI dashboards** to visualize transportation network performance metrics and identify potential bottlenecks for operational teams.
- Collaborated with business analysts to refine data requirements for reporting on public transit ridership and infrastructure usage patterns.

Enterprise Systems Integration & Automation (HCL Technologies)

- Engineered **Java Spring Boot** microservices to facilitate data exchange between internal ERP modules and external client systems via **REST APIs**.
- Automated routine data validation and reconciliation tasks using **Python scripting** and **SQL** queries across PostgreSQL and Oracle databases.
- Supported production environments for enterprise business systems, addressing P1/P2 incidents and managing change-control processes for system updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
