PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed new features for customer-facing applications using **Java Spring Boot**, adhering to Agile methodologies and contributing to a **15%** increase in feature adoption.
- Automated data validation and ETL processes with **Python scripting**, reducing manual effort by approximately **20 hours** per week for the operations team.
- Designed and built REST APIs in **Java Spring Boot** for cross-service communication, supporting a **30%** growth in data exchange volume.
- Managed production incidents for enterprise applications, performing log analysis in **Splunk** and coordinating resolution efforts to meet stringent SLAs.
- Collaborated with cross-functional teams to integrate new functionalities into enterprise business systems, ensuring seamless data flows across **PostgreSQL** and **Oracle** databases.
- Constructed and maintained interactive dashboards in **Power BI**, visualizing key operational metrics for business stakeholders and enabling data-informed decision-making.

SKILLS

Languages & Frameworks – TypeScript, Java, Spring Boot, Python, JavaScript, R, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, GitHub, Jenkins, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, R/RStudio

Methodologies & Tools – Agile, Scrum, Jira, Confluence, REST APIs, GraphQL, Linux, Splunk, Dynatrace

PROJECTS

Environmental Data API for Manufacturing Insights (HCL Technologies)

- Developed a **RESTful API** using **Java Spring Boot** to expose environmental data for manufacturing process analysis, enabling downstream sustainability calculations.
- Implemented **automated testing frameworks** with **JUnit** to ensure API reliability, achieving over **90%** code coverage for core endpoints.
- Integrated the API with **AWS Lambda** and **S3** for scalable data ingestion and retrieval, handling approximately **1,500** requests per hour during peak usage.

Customer Onboarding Analytics Dashboard (MSc Project)

- Built an interactive **Power BI** dashboard to visualize customer onboarding progress and identify key friction points, aggregating data from multiple sources using **Power Query**.
- Designed and implemented **DAX measures** to track onboarding completion rates and time-to-first-interaction, providing insights to product and support teams.
- Presented the finalized dashboard and analytical findings to a panel of instructors and industry guests, demonstrating effective data visualization and communication.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
