PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and reconciled voluntary and mandatory corporate action events for EMEA markets, ensuring timely execution within tight deadlines for a portfolio valued at approximately €750M.
- Reconciled, calculated, and booked corporate action entitlements across multiple business units, including Inventory Management, Swaps, and Stock Loan desks, processing an average of 200 events weekly.
- Executed post-payment reconciliations for stock and cash accounts, identifying and resolving discrepancies that impacted approximately 15% of daily settlement instructions.
- Provided client service support to trading desks and internal business units, addressing an average of 10-15 queries per day related to corporate action elections and entitlements.
- Collaborated with risk management and compliance teams to maintain established risk thresholds and ensure adherence to regulatory guidelines for asset services operations.
- Participated in project initiatives focused on enhancing operational efficiency and automating reconciliation workflows, contributing to a reduction in manual processing by ~20%.

SKILLS

Financial Services – Corporate Actions, Asset Services, Reconciliation, Client Servicing, Risk Management, Business Acumen, Stakeholder Management

Core Competencies – Data Collection, Data Entry, Adaptability, Problem Resolution, Oral Communication, Active Listening, Prioritization

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Splunk, Dynatrace, Power BI, Tableau

Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, ETL, R, pandas, NumPy, scikit-learn, Statistical Analysis

Enterprise Systems – ERP Integration Support, Change Management, Production Support, Monitoring, Incident Response

PROJECTS

Corporate Actions Election Automation (HCL Technologies)

- Developed Python scripts to automate the reconciliation of corporate action election data against custodian feeds, reducing manual review time by approximately 30%.
- Engineered data validation checks using SQL queries across PostgreSQL and Oracle databases to identify inconsistencies in event processing and entitlement calculations.
- Created automated reporting dashboards in Power BI to visualize election status, outstanding balances, and reconciliation exceptions for operational teams.

Transaction Reconciliation Dashboard (HCL Technologies)

- Built and maintained a Java Spring Boot REST API service to ingest and process transaction data from various financial systems for reconciliation purposes.
- Designed and implemented real-time monitoring alerts using Splunk, tracking key operational metrics for failed or stuck payment messages and reducing P1 incident resolution time by 15%.
- Collaborated with business analysts to gather requirements and perform User Acceptance Testing (UAT) for new reconciliation workflow features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
