PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **end-to-end software solutions** for enterprise applications, taking ownership from initial concept through to production deployment, impacting millions of users.
- Integrated **AI tools** into the development workflow, accelerating code design, implementation, and testing phases while upholding high standards for correctness and maintainability.
- Developed and maintained **REST APIs** using Java Spring Boot for cross-service data exchange, ensuring robust request validation and implementing circuit-breaker patterns to enhance system resilience.
- Managed and resolved **production incidents** for enterprise applications using **Splunk** and **Dynatrace**, ensuring adherence to service level agreements and minimizing business impact.
- Authored **Python scripts** to automate data ingestion and transformation processes, supporting scheduled reporting and ETL workflows for business analytics teams.
- Refactored relational database queries and implemented strategic indexing in **PostgreSQL**, reducing analytical report execution times by approximately **34%** across core ERP database clusters.

SKILLS

Programming Languages – Python, Java, Rust, SQL, English

Frameworks & Libraries – Spring Boot, NestJS, Node.js, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD, Observability (Splunk, Dynatrace)

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, ETL

AI & ML – MLOps, Machine Learning Fundamentals

PROJECTS

Enterprise Application Performance Enhancement

- Optimized critical **Java Spring Boot** microservices by implementing asynchronous processing patterns, reducing average response times by **45%** for high-traffic endpoints.
- Developed automated deployment pipelines using **Jenkins** and **Docker**, cutting down release cycle times from 3 days to under 5 hours for core backend services.
- Collaborated with cross-functional teams to integrate a new **REST API** gateway, improving system stability and simplifying client integrations.

Automated Data Pipeline for Business Insights

- Engineered a **Python**-based ETL pipeline to ingest and transform data from disparate sources into a centralized data warehouse, supporting a suite of **Power BI** dashboards.
- Implemented data validation checks and error handling within the pipeline, reducing data quality issues reported by downstream analytics teams by **28%**.
- Designed and built interactive **Power BI** dashboards to visualize key operational metrics, enabling stakeholders to track performance and identify trends more effectively.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
