PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Maintained and enhanced a production web site using **JavaScript**, **HTML**, and **CSS**, focusing on performance and reliability improvements for the documentation platform.
- Developed and automated site generation and publishing workflows using **Python**, enabling more consistent and faster content delivery to end-users.
- Engineered asynchronous **JavaScript** API integrations, including streaming responses and managing UI state, to create interactive documentation features.
- Integrated the documentation platform with backend web services for search and content discovery, debugging issues that spanned frontend code, APIs, and backend systems.
- Owned and improved **Azure DevOps (ADO) pipelines** for building and publishing documentation across QA and production environments, enhancing release repeatability.
- Authored **PowerShell scripts** and other automation to streamline publishing and validation workflows, contributing to improved release observability.

SKILLS

Web Technologies – JavaScript, HTML, CSS

Backend & Scripting – Python, PowerShell

DevOps & CI/CD – Azure DevOps (ADO), Jenkins, Git

APIs & Cloud – REST APIs, AWS (EC2, S3, Lambda, CloudWatch)

Databases – SQL (PostgreSQL, MySQL, Oracle)

Observability – Splunk, Dynatrace, CloudWatch

Languages – Java, Spring Boot

PROJECTS

Documentation Website Enhancement & CI/CD Automation

- Revamped the frontend of a public-facing documentation website using **JavaScript** and **CSS**, improving user experience and reducing page load times by **18%**.
- Developed a Python-based automation script to manage content ingestion and build processes, cutting manual effort by approximately **4 hours** per release cycle.
- Implemented and maintained **Azure DevOps (ADO) pipelines** for automated testing and deployment of documentation updates, ensuring consistent releases to production.

Interactive API Integration for Content Discovery

- Built interactive frontend components in **JavaScript** to integrate with backend search APIs, enabling dynamic content discovery for technical documentation.
- Managed asynchronous API calls and UI state updates to present search results and related content efficiently, enhancing user navigation.
- Collaborated with backend service teams to define API contracts and debug integration issues, ensuring seamless data flow into the documentation platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
