## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and implemented core systems for **NPC AI** and **general gameplay** features within a AAA game development environment.
- Engineered **high-performance** gameplay systems, delivering well-documented code that met strict quality standards for PC and console deployment.
- Integrated and tested new game features across a variety of **AAA game titles**, ensuring smooth operation on diverse console platforms.
- Collaborated with **art, animation, and design** teams to provide engineering support, facilitating cross-disciplinary workflow integration.
- Managed code versions and reported defects using **source control** and **bug tracking software** in a fast-paced team setting.
- Contributed to the development of **tool creation** for internal use, streamlining asset integration and workflow efficiency.

## SKILLS

**Core Languages** – C++, Python, C#

**Engines & Frameworks** – Unreal Engine, Custom Game Engine

**Development Practices** – Agile Development, Source Control, Bug Reporting, Profiling, Debugging

**Game Systems** – NPC AI, Gameplay Systems, UI Development

**Mathematics** – 3D Mathematics for Gaming

**Tools** – Jenkins, Jira, Confluence, Git

## PROJECTS

### AI Behavior Tree Implementation for NPC Control

- Designed and implemented a behavior tree system in **C++** for Non-Player Character (NPC) AI, enabling complex decision-making and emergent behaviors.
- Integrated the AI system with the **Unreal Engine** gameplay framework, optimizing pathfinding and perception modules for **real-time performance** on target consoles.
- Developed unit tests and performed integration testing to validate AI logic, reducing unexpected NPC actions in simulated environments by approximately **20%**.

### Custom Python Tool for Game Asset Pipeline

- Developed a **Python** scripting tool to automate the processing and import of game assets into a custom engine, reducing manual effort by **~35%**.
- Built a user-friendly interface for the tool, allowing artists and designers to manage asset configurations and import queues without direct engineering involvement.
- Integrated the tool with the existing **CI/CD pipeline** to ensure consistent asset preparation and deployment across development builds.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
