PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a queue of incoming user queries for a **Payables & Receivables platform**, resolving approximately **45 tickets per week** and identifying trends for escalation.
- Analyzed and resolved application issues for internal and external clients on the **Supply Chain Platform**, proposing workarounds to minimize business disruption.
- Supported the **production environment** by performing system monitoring and executing required controls, ensuring adherence to operational procedures.
- Collaborated with the **Change Management team** to log and track system bugs and enhancement requests identified during issue analysis.
- Developed **Python scripts** to automate data extraction and reporting tasks for operational teams, reducing manual effort by an estimated **15 hours per month**.
- Performed ad-hoc data validation and analysis using **SQL** against production databases to support issue diagnosis and client queries.

SKILLS

Application Support – Issue Analysis, Incident Management, Problem Management, Change Management, SLA Management, Production Support, System Monitoring, User Query Management

Core Technologies – Java Spring Boot, Python, SQL, REST APIs, MS Office (Excel, Word, PowerPoint)

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Observability & Automation – Splunk, Dynatrace, Shell Scripting

Business Systems – ERP Systems, Trade Finance Platforms, Payments Platforms, Supply Chain Platforms

Analytics & BI – Power BI, Tableau, DAX, Power Query

PROJECTS

Payments Operations Dashboard Enhancement

- Enhanced an existing **payments operations dashboard** by implementing new Python-based ETL jobs to ingest and process transaction data, handling approximately **3,000 records per hour**.
- Developed **interactive Power BI dashboards** to visualize key operational metrics and alert patterns for failed payment messages, improving visibility for the support team.
- Collaborated with business analysts to gather requirements for dashboard enhancements and participated in UAT cycles to ensure accurate data representation.

Automated Reconciliation Workflow Tool

- Built a **Python application** to automate parts of the reconciliation workflow for enterprise financial data, integrating with PostgreSQL and Oracle databases.
- Designed and implemented REST APIs using **Java Spring Boot** to enable cross-system data exchange, facilitating the transfer of reconciliation status updates.
- Scripted data validation checks and error reporting mechanisms using **SQL**, reducing manual data comparison effort by roughly **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
