## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **quality engineering methodologies** and systems to meet regulatory and customer requirements, focusing on **software validation** best practices.
- Reviewed and approved **software qualification lifecycle** deliverables, ensuring systems met intended use and regulatory standards, for equipment and software updates under BSC Change Control processes.
- Provided guidance and collaboration to project teams on documentation for equipment and systems, ensuring adherence to established policies and SOPs.
- Applied systematic **problem-solving methodologies** to identify, prioritize, and resolve quality issues encountered during software qualification projects.
- Drove a culture of **Right First Time** to support patient safety and business efficiency by ensuring software and equipment were qualified per intended use.
- Participated in **validation project teams**, assisting in schedule determination and ensuring cross-departmental adherence to project timelines.

## SKILLS

---

**Software Quality Engineering** – Equipment Qualification, Software Qualification, Software Validation, Part 11, Data Integrity, Regulatory Compliance, Quality Systems, SOPs, WIs

**Programming Languages** – Python, Java, C#, C++, VB.Net

**Databases & BI** – SQL, Power BI, Power Automate

**Development Tools & Methodologies** – Agile, Scrum, Jenkins, Git, Jira, Confluence, Docker

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Linux

**Data Analysis & Reporting** – Data Reporting Software, Artificial Intelligence Applications, R, Tableau

## PROJECTS

---

### Enterprise Software Validation Framework

- Designed and implemented a standardized **software validation framework** for enterprise applications, incorporating **Python scripting** for automated test case generation and execution.
- Ensured compliance with **regulatory requirements** and industry best practices by developing comprehensive documentation templates for validation plans, protocols, and reports.
- Collaborated with cross-functional teams including development, operations, and business analysts to gather requirements and ensure successful UAT for new system deployments.

### Automated Compliance Reporting System

- Developed an automated system using **Python** and **SQL** to extract and consolidate data from multiple sources for regulatory compliance reporting, reducing manual effort by 40%.
- Built interactive **Power BI dashboards** to visualize compliance metrics and trends, enabling stakeholders to quickly identify areas needing attention.
- Managed change control processes for system updates, coordinating testing and deployment activities to minimize disruption to ongoing operations.

## EDUCATION

---

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
