## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **Level 2 technical support** for enterprise applications, resolving over **80%** of escalated tickets within defined SLAs.
- Managed and maintained **Windows desktop & server environments**, including regular patching and updates across **~150 endpoints**.
- Configured and troubleshooted **network devices** such as firewalls, routers, and switches to resolve connectivity issues for remote users.
- Supported end-user issues across **Microsoft 365 services** including Outlook, Teams, and OneDrive, improving user productivity by an estimated **15%**.
- Authored and updated technical documentation and **knowledge base articles** for common issues, reducing repeat ticket volume by **22%**.
- Assisted with the onboarding and offboarding of **~30 users** per quarter, managing account creation, device provisioning, and access control.

## SKILLS

---

**Operating Systems** – Windows Desktop, Windows Server, Linux

**Cloud Platforms** – AWS (EC2, S3, Lambda, CloudWatch), Azure, Microsoft 365 Admin Center

**Networking** – VPNs, Firewalls, Routers, Switches, Network Troubleshooting

**Productivity Suites** – Microsoft 365 (Outlook, SharePoint, Teams, OneDrive)

**Support Tools** – Jira, Confluence, Splunk, Dynatrace, Service Desk Systems

**Programming & Scripting** – Python, Java, SQL

**Hardware** – Printers, Mobile Devices

## PROJECTS

---

### Enterprise Systems Health Monitoring (HCL Technologies)

- Implemented proactive monitoring solutions using **Splunk and Dynatrace** to identify and resolve system alerts before they impacted production.
- Developed **Python scripts** to automate log analysis and data validation tasks, reducing manual effort by approximately **30%**.
- Contributed to the creation of internal documentation and runbooks for incident response procedures, standardizing troubleshooting steps for common issues.

### User Account Management Automation (HCL Technologies)

- Created **Python scripts** to automate the creation and deactivation of user accounts within enterprise systems, streamlining the onboarding/offboarding process.
- Integrated with **Jira** to track and manage user access requests, ensuring compliance with change management protocols for approximately **50 requests** per sprint.
- Assisted in UAT coordination for system configuration updates affecting user access and permissions across interconnected business systems.

## EDUCATION

---

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
