PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed mortgage application documentation collation and submission processes, ensuring timely and accurate filing with financial providers.
- Provided comprehensive mortgage pipeline reviews, tracking application progress from initial submission through to drawdown.
- Served as a primary point of contact for mortgage brokers, responding to queries and delivering high-quality customer service to facilitate smooth transactions.
- Executed data entry and file management tasks for mortgage applications, maintaining meticulous records and organizing digital documentation.
- Coordinated with external providers to obtain necessary updates and information, streamlining the mortgage application lifecycle.
- Logged all communication, including emails and calls, onto case files to maintain a complete and auditable record of interactions.

SKILLS

Administration – Mortgage Administration, Data Entry, File Management, Documentation Collation, Pipeline Reviews, Office Administration

Communication – Interpersonal Skills, Message Taking, Responding to Queries, Customer Service

Software & Tools – Microsoft Office Suite, Microsoft Excel, Internal Systems

Domain Knowledge – Mortgage Process, Application to Drawdown

Work Style – Initiative, Teamwork, Organisational Skills, Time Management

PROJECTS

Mortgage Application Processing System Enhancement (HCL Technologies)

- Streamlined documentation collation for mortgage applications by developing standardized digital templates, reducing submission errors by 15%.
- Implemented a structured file management system for case files, improving retrieval times for application-related documents by an average of 20%.
- Coordinated with internal operations teams to log and track communication for over 500 mortgage applications, ensuring all audit trail requirements were met.

Customer Service Improvement Initiative (MSc Data Analytics Project)

- Developed interactive **Power BI** dashboards to visualize customer query response times and resolution rates for a simulated financial services client.
- Analyzed communication logs using **Python** (pandas) to identify key patterns in broker queries, informing targeted improvements to service delivery.
- Presented findings and dashboard prototypes to stakeholder groups, demonstrating potential for enhanced customer satisfaction and operational efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
