PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed day-to-day operation of computers and networks within a multi-site environment, ensuring seamless user access to critical applications.
- Provided technical support to users with varying levels of PC knowledge, resolving hardware and software issues to maintain operational efficiency.
- Configured and maintained WAN communication links across diverse technologies, supporting connectivity for a dispersed network of users.
- Collaborated with external suppliers and managed vendor contracts for ICT equipment and services, ensuring timely delivery and cost-effectiveness.
- Responded to and resolved P1/P2 incidents related to enterprise applications, adhering to strict SLAs and maintaining system reliability.
- Automated routine IT tasks using **Python scripting**, streamlining data validation and report generation processes for operational teams.

SKILLS

Hardware & OS – Servers, Routers, Firewalls, Personal Computers, Laptops, Printers, Windows Server 2016/2019/2022, Windows 10/11

Server Applications – Active Directory, Microsoft Exchange, Exchange Online, Microsoft SQL 2014/2016, Microsoft Office, Microsoft Office 365

Networking – LAN/WAN, WAN Communication Links, Telecommunications Equipment, PBXs, VoIP Systems, Mobile Phones

Cloud & Virtualization – Citrix Cloud, SAN Technology, Security Appliances, Microsoft Cloud Technologies

Core IT Support – Problem Solving, Technical Support, Hardware/Software Troubleshooting, Vendor Management, Incident Response, Change Management

Scripting & Automation – Python, Shell Scripting, Cron Jobs

Databases & Monitoring – Microsoft SQL Server, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, CloudWatch

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Provided production support for enterprise Java and .NET applications, focusing on incident response and SLA management across **Splunk** and **CloudWatch** monitoring tools.
- Developed **Python scripts** to automate data ingestion and ETL processes for scheduled reporting, improving data availability for business analysts.
- Managed system configuration updates and coordinated User Acceptance Testing (UAT) for interconnected enterprise systems, ensuring smooth change-control management.

Network Infrastructure & User Support Enhancement (HCL Technologies)

- Configured and maintained **Linux** servers and managed **Docker** containerized applications, ensuring reliable deployment and operation within the AWS environment.
- Developed and executed **SQL queries** across PostgreSQL and MySQL for data validation and schema updates, supporting cross-system integrations.
- Implemented CI/CD pipelines using **Jenkins** and Git for code reviews and automated deployments, improving team's development workflow efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
