PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed **Java Spring Boot** microservices for cloud-native applications, implementing **REST APIs** and handling core business logic to support platform services.
- Automated data ingestion and transformation processes using **Python scripting** for ETL pipelines, enhancing data readiness for downstream analytics and reporting across enterprise systems.
- Managed production incidents and SLA adherence for enterprise applications on **AWS** using **Splunk** and **Dynatrace**, performing root cause analysis and implementing corrective actions.
- Designed and maintained **CI/CD pipelines** with **Jenkins** and **Git**, facilitating efficient code deployment and enabling consistent builds for cloud platform services.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement features for enterprise business systems, coordinating UAT and post-go-live support.
- Refactored inefficient relational database queries and implemented strategic indexing in **PostgreSQL**, reducing analytical report execution times by **34%** across core ERP database clusters.

SKILLS

Cloud Platforms – AWS, GCP, Azure, Docker, Kubernetes

Backend Development – Java, Spring Boot, Python, Golang, Microservices, REST APIs, API Design, Distributed Systems

Databases – PostgreSQL, MySQL, Oracle, Database Design, Data Management

DevOps & CI/CD – Jenkins, Git, CloudWatch, Splunk, Dynatrace

Programming & Scripting – Python, Javascript, Golang, Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum, Change Management

PROJECTS

Cloud Platform Observability & Alerting

- Engineered a **Python**-based data pipeline to aggregate logs and metrics from distributed microservices on **AWS**, feeding into a centralized monitoring system.
- Developed custom alerting rules in **CloudWatch** to detect anomalies and critical errors in platform services, reducing mean time to detection by **40%**.
- Created interactive dashboards in **Power BI** visualizing system health, performance metrics, and incident trends for operations and engineering teams.

Enterprise Integration Service

- Designed and implemented a **Java Spring Boot** microservice to facilitate secure data exchange between disparate enterprise systems via **REST APIs**.
- Integrated the service with internal feature stores and external vendor APIs, handling approximately **1,500** requests per hour during peak business operations.
- Wrote comprehensive unit and integration tests, achieving over **90%** code coverage to ensure reliability and maintainability of the integration layer.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
