PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** RESTful APIs for core Webex services, processing over 1,500 requests per minute to support new end-user features.
- Engineered **Python** automation scripts that reduced manual data ingestion time for operational reporting by **30%**, enabling faster issue identification.
- Managed production incidents for enterprise applications, performing root cause analysis and coordinating fixes within strict **SLA** targets to maintain service availability.
- Contributed to a cross-functional team by performing code reviews and implementing technical designs for new features in a **TypeScript**-based framework, enhancing code quality.
- Developed and maintained **SQL** queries and stored procedures for data validation and reporting on a large-scale financial operations dashboard, supporting audit trail requirements.
- Collaborated with business analysts and operations teams to gather requirements for system enhancements, participating in UAT and post-implementation triage for enterprise business systems.

SKILLS

Languages – Java, Python, TypeScript, SQL, C++, Swift, JavaScript

Frameworks & Back-end – Spring Boot, RESTful APIs, WebSockets, NestJS

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, DevOps, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Linux, Qt, Cocoa, React, Angular

Data Analytics & BI – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, DAX, Power Query, Data Modelling

Concepts – System Design, Architecture, Software Quality, Test Strategy, Code Reviews, AI-assisted Development, LLM Tools

PROJECTS

Webex Collaboration Feature Enhancement

- Developed backend services using **Java Spring Boot** and **RESTful APIs** to integrate new collaboration features, handling approximately **2,000 events per second** during peak usage.
- Collaborated with UX designers and product managers to translate user requirements into technical specifications, ensuring alignment with the overall product roadmap.
- Wrote comprehensive unit and integration tests, achieving over **90% code coverage** for new service modules and ensuring seamless integration within the existing Webex platform.

Real-time Transaction Monitoring Dashboard

- Built and deployed interactive **Power BI** dashboards to visualize real-time transaction flows and operational metrics for a financial services client, supporting over 15 distinct operational views.
- Developed **Python** scripts to automate data extraction and transformation from multiple SQL databases (PostgreSQL, Oracle), reducing report generation time by **40%**.
- Implemented data validation checks and alerting mechanisms within the dashboard framework to flag anomalies and potential issues in near real-time, improving incident response by approximately **25%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
