PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Python** applications and data pipelines, focusing on data transformation and validation using **Pandas** and **NumPy**, supporting analytics initiatives.
- Assisted in the development and testing of **PySpark**-based data processing for large-scale datasets, working under senior engineer guidance to optimize batch job performance.
- Wrote clean, efficient, and well-documented **Python** code for data engineering tasks, adhering to team best practices for maintainability and readability.
- Debugged and resolved issues in batch and data-processing jobs, contributing to improved reliability and reduced error rates in production environments.
- Participated in peer code reviews, providing constructive feedback to enhance code quality and adherence to performance standards for data handling.
- Collaborated with **DevOps** and QA teams to streamline the deployment process and ensure the quality and stability of data processing applications.

SKILLS

Programming Languages – Python, PySpark, SQL, Java

Libraries & Frameworks – Pandas, NumPy, Spring Boot, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum, DevOps, QA

PROJECTS

Automated Data Validation Pipeline (HCL Technologies)

- Engineered a **Python**-based pipeline to automate data validation for financial transaction records, processing approximately 15,000 records daily.
- Integrated **Pandas** and custom validation logic to identify and flag data inconsistencies, reducing manual data review time by 40%.
- Developed scheduled reporting using **SQL** queries against a **PostgreSQL** database to summarize validation results for operations teams.

Batch Data Processing for Operations Dashboard (HCL Technologies)

- Developed and maintained batch data processing jobs using **Java Spring Boot** and **SQL** for a financial services operations dashboard.
- Implemented data transformation logic to aggregate and prepare transaction data for monitoring and alerting functionalities, supporting an 8-person operations team.
- Managed CI/CD integration using **Jenkins**, ensuring reliable deployment of updates to the production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
