PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the IT setup and connectivity for **15+ new construction project sites**, ensuring seamless integration with core business platforms and operational continuity.
- Supported the full hardware lifecycle process for IT assets, including procurement, deployment, maintenance, and decommissioning across **~100 end-users**.
- Administered user lifecycle within **Microsoft 365**, managing licenses, and controlling access to files, SharePoint sites, and distribution groups for an 8-person IT team.
- Provided first-level IT support for all hardware, software, and IT systems, resolving an average of **~20 tickets per week** and escalating complex issues to the Managed Service Provider.
- Assisted with the implementation of **SharePoint platform** enhancements for various departments, improving document management and team collaboration workflows.
- Contributed to the development and delivery of **cybersecurity training** and awareness campaigns for new end-users, reinforcing best practices for system access and data integrity.

SKILLS

Infrastructure & Network – Site Connectivity, Communication Lines Management, Hardware Lifecycle Management, AV Functionality

Business Systems – Project Site IT Setup, Project Management Platforms, Core Business Systems Support, Software Licensing

Cybersecurity & Compliance – Cybersecurity Strategy, Access Controls, Cybersecurity Training, Awareness Campaigns

Data & Reporting – Data Integrity Assurance, AI Initiatives Support

General IT – Microsoft Office Suite, Excel (Intermediate), Organizational Skills, Problem-Solving, Initiative

PROJECTS

Construction Site IT Infrastructure Deployment (HCL Technologies)

- Led the deployment of IT infrastructure for **5 new remote construction sites**, establishing reliable data and voice connectivity using managed network services.
- Configured and deployed essential hardware including laptops, printers, and network equipment, ensuring all sites met operational readiness within **3 business days of request**.
- Developed and maintained documentation for site-specific IT setups, streamlining the onboarding process for future project locations.

Microsoft 365 User & Access Management Enhancement (HCL Technologies)

- Streamlined the **Microsoft 365 user lifecycle process** for a 50-person department, automating account provisioning and deprovisioning tasks.
- Implemented granular access controls for **SharePoint sites** and shared folders, reducing unauthorized data access incidents by an estimated **15%**.
- Coordinated with business unit managers to define and manage access permissions for distribution lists and team groups.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026
