PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Led the creation and governance of **Master Data** for the **SAP COMET** system, resolving **~15-20** data creation issues per week for the value stream.
- Generated **Master Data Quality Reports** using SQL queries against the **SAP** database, maintaining data accuracy for an average of **3,500** material masters.
- Collaborated with business stakeholders across **4** different workstreams to drive decision-making for maintaining high standards of **data quality** and ensure timely material creation in **SAP COMET**.
- Managed and analyzed workflow data requests for compliance and completeness, ensuring adherence to **data standards** and completing triage for **~20** requests weekly.
- Designed and executed User Acceptance Testing (UAT) scripts for new **SAP** module introductions and data change initiatives, coordinating with **3** business teams.
- Trained and advised team members on **data standards** and **MDM processes**, contributing to a reduction in data entry errors by **18%** over a 6-month period.

SKILLS

SAP – COMET, Material Master, Master Data Management, SAP Deployment

Data Management – Data Quality, Data Governance, Data Lifecycle, Workflow Analysis

Reporting & Analysis – Data Quality Reports, SQL, Data Interpretation

Project Management – Master Data Projects, Stakeholder Coordination, UAT

Process Improvement – Learning & Development, Data Entry Oversight, End-to-End Data Management

Soft Skills – Collaboration, Decision Making, Training & Advising, Issue Resolution

PROJECTS

SAP Master Data Harmonization Initiative (HCL Technologies)

- Led a project to harmonize disparate material master data across legacy systems into the new **SAP COMET** platform, defining and enforcing new data creation standards.
- Developed a suite of **SQL** scripts to validate data completeness and accuracy for over **5,000** material records prior to migration, identifying and rectifying **~400** critical data anomalies.
- Coordinated with business analysts and operations teams to conduct UAT for the master data setup, ensuring all business requirements for material flow were met.

ERP Data Quality & Reporting Enhancement (HCL Technologies)

- Developed and maintained **Power BI** dashboards to visualize key data quality metrics for enterprise resource planning (ERP) systems, tracking improvements over time.
- Automated data quality checks using **Python** scripts that processed and validated data from **PostgreSQL** and **Oracle** databases, reducing manual review effort by **30%**.
- Collaborated with business stakeholders to define critical data elements and reporting requirements, leading to the creation of **12** new data quality reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
