PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Authored and reviewed **21CFR Part 11** compliant documentation for laboratory systems, ensuring data integrity and regulatory adherence.
- Collaborated with site teams to generate requirements and configure specifications for laboratory systems, directly supporting IT activities for new capital projects.
- Developed and maintained **Python** scripts to automate data validation and reporting tasks for enterprise business systems, reducing manual effort by approximately **30%**.
- Supported the deployment of system content and conducted end-user training sessions for laboratory applications, facilitating smooth adoption and system utilization.
- Participated in risk assessments for laboratory systems, identifying potential compliance gaps and contributing to mitigation strategies.
- Managed production support for enterprise Java/.NET applications, resolving P1/P2 incidents and maintaining service level agreements using **Splunk** and **Dynatrace**.

SKILLS

Laboratory Systems & Compliance – 21CFR Part 11, Data Integrity, Risk Assessment, IOQ Protocols, Regulatory Compliance

Software Development & Support – Java, Spring Boot, Python, .NET, REST APIs, SQL, PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

CI/CD & Tools – Jenkins, Git, Jira, Confluence

Analytics & Visualization – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy

Operating Systems – Microsoft Windows (10/11, Server), Linux Shell Scripting

PROJECTS

Laboratory System Validation and Deployment

- Developed comprehensive test protocols for Installation Qualification and Operational Qualification (IOQ) of laboratory systems, ensuring adherence to **21CFR Part 11** guidelines.
- Authored and reviewed technical documentation, including system specifications and user manuals, for new laboratory IT system deployments.
- Supported cross-functional teams in gathering requirements and configuring system specifications, contributing to the successful IT integration of laboratory capital projects.

Automated Data Integrity Reporting

- Engineered a **Python**-based solution to extract, validate, and report on data integrity metrics from multiple enterprise systems, reducing manual reporting time by an estimated **25%**.
- Integrated the automation script with **SQL** databases (PostgreSQL, Oracle) to query transaction logs and audit trails, flagging potential compliance deviations.
- Designed and implemented automated email notifications for critical data integrity alerts, enabling faster response times for the quality control team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
