PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed large volumes of data for accuracy against specific client policies, ensuring adherence to content moderation guidelines for a leading online multinational company.
- Engaged with businesses via outbound phone calls to verify information and update client platforms, maintaining a focus on meticulous data entry and accuracy for approximately 45-50 businesses per day.
- Collaborated with a rapidly growing multilingual team and internal stakeholders to respond to requests, contributing to the success of a digital product used by over a billion people.
- Managed production incidents for enterprise applications, analyzing logs using **Splunk** and **CloudWatch** to resolve P1/P2 issues within strict SLA parameters.
- Developed **Python** scripts to automate data extraction and reporting tasks, reducing manual effort by an estimated 15% for recurring weekly reports.
- Assisted in the integration and support of enterprise business systems, including ERP modules, facilitating data flow across **PostgreSQL** and **Oracle** databases.

SKILLS

Customer Support & Engagement – Customer Support, Content Review, Outbound Calls, Business Engagement, Communication Skills, Data Verification, Client Platforms

Technical Skills – Python, Java, Spring Boot, REST APIs, SQL, PostgreSQL, MySQL, Oracle, AWS (EC2/S3/Lambda/CloudWatch), Docker, Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Exploratory Data Analysis, Splunk, Dynatrace

Operations & Monitoring – Production Support, Incident Response, SLA Management, Change Management, Jira, Confluence

Language Proficiency – English (Fluent), Dutch (Role Language)

PROJECTS

Content Moderation Workflow Automation (HCL Technologies)

- Developed a **Python** script to parse and categorize incoming content review requests, reducing manual triage time for the operations team by approximately 20%.
- Integrated the script with **Jira** ticketing system to automatically flag urgent moderation tasks based on predefined criteria, improving response times for high-priority items.
- Designed a basic reporting module using **Pandas** to track review volumes and common content issues, providing insights for process improvement discussions with business analysts.

Financial Transaction Data Validation Dashboard (HCL Technologies)

- Built a **Power BI** dashboard to visualize key metrics from a payments operations dashboard, including transaction volumes and error rates, supporting over 10 distinct operational views.
- Developed **DAX** measures and used **Power Query** to transform and model data from disparate sources, ensuring data integrity for reporting on reconciliation workflows.
- Collaborated with business analysts to gather requirements and refine dashboard layouts, enabling operational teams to monitor transaction flows more effectively.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
