PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed large volumes of data against client-specific policies to ensure accuracy and compliance for a global technology client.
- Engaged with business stakeholders via outbound phone calls to verify information and accurately update client platforms, directly impacting data integrity.
- Developed and maintained Python scripts to automate data validation and reporting tasks, reducing manual effort by approximately **30%** for the operations team.
- Collaborated with cross-functional internal teams to gather requirements and resolve issues related to data moderation processes and platform updates.
- Managed and responded to production incidents for enterprise applications, focusing on timely resolution and adherence to service-level agreements.
- Participated in Agile ceremonies, including sprint planning and retrospectives, contributing to process improvements for the development and support teams.

SKILLS

Data Review & Analysis – Data Moderation, Policy Adherence, Accuracy Assessment, Information Verification, Compliance Requirements

Programming & Scripting – Python, SQL, Java, Spring Boot

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Jenkins, Git, Agile/Scrum, Splunk, Dynatrace

Communication & Stakeholder Management – Verbal Communication, Written Communication, Customer Engagement, Outbound Calls, Cross-functional Collaboration

PROJECTS

Customer Data Verification & Platform Update Initiative

- Designed and implemented a Python-based data validation framework to cross-reference customer-provided information against established policy guidelines.
- Automated the process of updating client platforms with verified data through targeted SQL scripts, improving data entry efficiency by an estimated **25%**.
- Collaborated with business analysts to define verification criteria and UAT test cases, ensuring alignment with client requirements and operational standards.

Operational Dashboard Enhancement for Transaction Monitoring

- Developed and enhanced operational dashboards using **Power BI** to provide real-time insights into transaction processing and identify anomalies.
- Wrote complex **DAX** measures and Power Query transformations to aggregate and visualize key performance indicators for financial operations.
- Supported UAT and post-implementation triage for dashboard features, gathering feedback from operations teams to drive iterative improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
