PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed accuracy of content against client policies for a major online platform, ensuring adherence to established guidelines.
- Engaged with business stakeholders via outbound phone calls to verify information and accurately update client platforms, maintaining data integrity.
- Collaborated with internal teams to support a leading online multinational company's digital product, contributing to its ongoing success and improvement.
- Developed Python scripts for data validation and scheduled reporting to support operational workflows, enhancing data accuracy and timeliness.
- Managed production support for enterprise applications, responding to incidents and ensuring operational stability within strict SLA parameters.
- Participated in Agile/Scrum ceremonies, including sprint planning and retrospectives, to facilitate efficient project delivery and continuous improvement.

SKILLS

Content Moderation & Policy Adherence – Data Review, Accuracy Assessment, Client Policy Compliance, Regulatory Compliance, GDPR Awareness

Customer & Stakeholder Engagement – Outbound Phone Calls, Information Verification, Platform Updates, Customer Support, Business Communication

Technical Skills – Python Scripting, Data Validation, SQL (PostgreSQL, MySQL, Oracle), Java Spring Boot, REST APIs

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker, Jenkins, Splunk, Dynatrace

Project Management & Collaboration – Agile/Scrum, Jira, Confluence, Change Management, Cross-functional Collaboration

PROJECTS

Enterprise Application Monitoring Dashboard (HCL Technologies)

- Developed and maintained a dashboard using **Power BI** to visualize key operational metrics for enterprise applications, enabling faster identification of performance bottlenecks.
- Integrated data from multiple sources including application logs and performance monitoring tools (e.g., **Splunk**, **Dynatrace**) into the dashboard for comprehensive analysis.
- Designed and implemented **DAX measures** and data models to support business stakeholder reporting needs, improving visibility into system health.

Automated Data Reconciliation Workflow (HCL Technologies)

- Engineered Python scripts to automate data reconciliation processes between disparate systems, reducing manual effort by approximately 40%.
- Wrote SQL queries against **PostgreSQL** and **MySQL** databases to extract and validate transaction data as part of the reconciliation workflow.
- Implemented error handling and logging mechanisms within the automation scripts to ensure reliability and provide clear audit trails for processed data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
