PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed accuracy of user-submitted data against established client policies and guidelines, identifying and flagging approximately 45 discrepancies per week.
- Engaged with business users via outbound phone calls to verify information and update client platforms, successfully validating details for over 300 businesses in the past quarter.
- Collaborated with internal technical teams to escalate and resolve data accuracy issues, contributing to a 15% reduction in recurring data validation errors.
- Developed and maintained concise documentation for data review processes and compliance requirements, supporting the onboarding of 5 new team members.
- Managed adherence to all compliance requirements, including data privacy and regulatory standards, during daily operational tasks.
- Focused on attention to detail and the ability to concentrate on repetitive tasks, consistently meeting or exceeding daily review targets by an average of 10%.

SKILLS

Core Competencies – Data Review, Content Moderation, Customer Engagement, Compliance Adherence, Problem-Solving, Adaptability, Attention to Detail

Languages – English (Fluent), German (Fluent)

Tools & Platforms – Jira, Confluence, Microsoft Office Suite (Word, Excel, Outlook)

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Operations & Support – Production Support, Incident Response, Automation Scripting, Transaction Monitoring, Reconciliation Workflows, ERP Systems

PROJECTS

Data Verification System Enhancement (HCL Technologies)

- Engineered Python scripts to automate the initial validation of incoming data sets, reducing manual review time for approximately 1,500 records per batch.
- Developed a reporting module using SQL to track data discrepancy types and resolution times, providing insights that informed process improvements.
- Collaborated with operations teams to gather requirements for enhanced data accuracy checks, contributing to a more efficient verification workflow.

MSc Data Analytics Applied Project: Customer Feedback Dashboard

- Designed and built an interactive dashboard in **Power BI** to visualize customer feedback trends and sentiment analysis from survey data.
- Developed **DAX** measures to quantify key performance indicators related to customer satisfaction and identify areas for service improvement.
- Performed data cleaning and transformation using **Power Query** on datasets exceeding 10,000 customer entries to prepare for analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
