PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed incoming user-generated content against specific client policies, ensuring adherence to community guidelines and identifying non-compliant material for a global technology client.
- Engaged with businesses via outbound phone calls to verify critical information, update client platforms, and resolve data discrepancies, contributing to data accuracy for a user-facing digital product.
- Managed a high volume of repetitive data review tasks with a focus on maintaining meticulous attention to detail, processing an average of 150-200 items per day within defined SLAs.
- Collaborated with internal operations teams and business analysts to gather requirements for content moderation workflows and support user acceptance testing (UAT) for platform updates.
- Developed Python scripts to automate data validation checks and generate scheduled reports on moderation activities, improving team efficiency by approximately 15%.
- Responded to and triaged escalated issues from the customer support team, performing initial investigation and providing detailed notes for further analysis by senior technical staff.

SKILLS

Languages – English, Italian

Core Competencies – Content Review, Data Moderation, Customer Engagement, Problem-Solving, Adaptability, Attention to Detail, Communication Skills

Tools & Platforms – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence, Jenkins, Git, Linux

Programming & Scripting – Python, Java, SQL

Databases – PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Frameworks & Technologies – Spring Boot, REST APIs, Pandas, NumPy, Scikit-learn

PROJECTS

Customer Data Verification Platform (HCL Technologies)

- Developed a Python-based tool to assist in outbound verification calls for business clients, ensuring accurate and up-to-date information on a client platform.
- Integrated the tool with a PostgreSQL database to log verification outcomes and update client records, supporting a team of 8 data verification associates.
- Designed basic reporting dashboards in Power BI to visualize call completion rates and data accuracy metrics for management review.

Content Moderation Workflow Automation (MSc Data Analytics Project)

- Analyzed a dataset of user-generated content to identify common policy violations and patterns using Python (Pandas, Scikit-learn).
- Built a proof-of-concept model to flag potentially non-compliant content, achieving an accuracy of approximately 82% on a held-out test set.
- Created interactive Tableau dashboards to visualize moderation trends and highlight areas requiring policy clarification for stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
