PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **Level 1 support** for validated **Analytical Laboratory Systems**, resolving ~45 tickets weekly within a **pharmaceutical API manufacturing operation** environment.
- Managed user administration and performed **Periodic User Reviews** and **Audit Trail Reviews** for local laboratory applications, ensuring compliance with GMP standards.
- Collaborated with **vendor and global teams** to troubleshoot and resolve complex system errors, acting as the primary on-site contact for the **Laboratory System Helpdesk**.
- Supported system content deployment and conducted **end-user training** sessions for laboratory personnel on new application features and updates.
- Developed **Python scripts** to automate routine data validation tasks and generate scheduled reports for operational analysis, reducing manual effort by approximately **15%**.
- Maintained and administered local laboratory applications, including **LIMS Labware**, ensuring system availability and performance for critical quality control functions.

SKILLS

Core Systems Support – GMP Essential Labware, LIMS Labware, Laboratory Applications, System Maintenance, User Administration, Audit Trail Reviews, Incident Management, Troubleshooting, Vendor Collaboration, End User Training

Operating Systems – Microsoft Windows (Windows 7, Windows Server 2003/2008)

Scripting & Automation – Python, Shell Scripting

Methodologies – Agile/Scrum, Change Management, Quality Control

Soft Skills – Problem Solving, Communication, Interpersonal Skills, Organization, Prioritization, Teamwork, Independence

PROJECTS

Laboratory System Support Automation (HCL Technologies)

- Developed a series of **Python scripts** to automate the generation of audit trail reports and user access logs from a legacy financial services dashboard, reducing manual report compilation time by **30%**.
- Created **shell scripts** for log analysis on Linux servers, identifying recurring error patterns within the application stack and reducing P1 incident resolution time by an average of **12%**.
- Designed and documented a streamlined process for triaging and escalating critical incidents related to transaction monitoring systems, improving inter-team handoff efficiency.

ERP System Integration & Data Flow (HCL Technologies)

- Supported cross-system integrations between an ERP module and a customer-facing portal using **REST APIs**, facilitating data synchronization for over **5,000** customer records monthly.
- Performed data validation and schema change management tasks on **PostgreSQL** databases supporting enterprise business systems, ensuring data integrity for financial reporting.
- Coordinated user acceptance testing (UAT) for system configuration updates, collaborating with business analysts and operations teams to ensure successful post-go-live operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
